Portfolio

PROFILE

Software Engineering graduate from ISLAIB. Versatile profile with hands-on experience in full-stack development and predictive modeling (Data Science/ML). Trilingual in Arabic, French, and English, seeking a Software Engineer position within an innovative, data-driven organization.

EDUCATION

Institut Supérieur des Langues Appliquées et de l'Informatique de Béja (ISLAIB)

Bachelor of Computer Science — Software Engineering and Information Systems, with Honors

2023 – 2026

Lycée Omrane Supérieur, Tunis

Baccalaureate in Computer Science

2022 – 2023

TECHNICAL SKILLS

- Languages: Python, Java, C#, JavaScript, HTML, CSS, PHP
- Frameworks: FastAPI, Flask, ASP.NET MVC, REST APIs, Chart.js
- Machine Learning & Data: Scikit-learn, XGBoost, Pandas, NumPy
- Databases: MySQL, PostgreSQL, Oracle, SQL Server
- Systems: Linux Administration, Git

PROFESSIONAL EXPERIENCE

Tunisie Telecom

Tunis, Tunisia

Final-Year Internship — Customer Churn Prediction

Feb. 2026 – June 2026

- Designed a complete decision-support system following the CRISP-DM methodology to identify customers at risk of churn.
- Handled data quality issues (missing values, duplicates, class imbalance); performed feature engineering and data visualization.
- Trained and evaluated several machine learning models; selected XGBoost as the final model based on its performance, reaching 96% accuracy, 83% precision, 93% recall, and 88% F1-score on the churn class.
- Validated the final model on real customer data, confirming solid and stable performance.
- Developed a Flask web application with an interactive dashboard and dynamic KPIs for visualizing predictions.

Asteelflash Tunisia

Tunis, Tunisia

Internship — PFA (Year-End Project)

June 2025

- Developed a role-based ASP.NET MVC web application (Administrator, User, Operator) for managing industrial quality tests, implementing a validation workflow (Initial Test → Quality Control → Client Test) with strict business rules.
- Designed the system architecture using Entity Framework and SQL Server, secure authentication with BCrypt, and automatic test-type suggestions based on product history.
- Developed advanced search features, Chart.js analytics, and Excel export (EPPlus) for quality reporting.

PERSONAL PROJECTS

Magasin+ — Store Management System

- Complete point-of-sale web application: fast checkout, stock management with alerts, product categories and subcategories, cashier management with roles (cashier / supervisor).
- Sales reports (revenue, best-selling products, stock value) with CSV export, printable receipts, and an activity log for full traceability of actions.
- Built with FastAPI, SQLAlchemy, and PostgreSQL; secure authentication with JWT and bcrypt hashing.

CERTIFICATIONS

- Presenting Data — HP LIFE (April 2026)
- SQL — 365 Data Science (Nov. 2024)
- Mathematics — 365 Data Science (Nov. 2024)

LANGUAGES

- Arabic: Native language
- French: Intermediate level
- English: Good level

SOFT SKILLS

- Teamwork and collaboration
- Adaptability and time management
- Problem-solving and critical thinking
- Stress management and ability to work under pressure
