EDUCATION

Higher Institute of Applied Languages and Computer Science of Béja (ISLAIB)
Bachelor's Degree in Computer Science — Software Engineering and Information Systems *2023 – 2026*

Omrane Supérieur High School, Tunis
Baccalaureate in Computer Science *2022 – 2023*

TECHNICAL SKILLS

- **Languages:** Python, Java, C#, JavaScript, HTML, CSS, PHP
- **Frameworks:** FastAPI, Flask, ASP.NET MVC, REST APIs, Chart.js
- **Machine Learning & Data:** Scikit-learn, XGBoost, Pandas, NumPy
- **Databases:** MySQL, PostgreSQL, Oracle, SQL Server
- **Systems:** Linux Administration, Git

PROFESSIONAL EXPERIENCE

Tunisie Telecom **Centre Urbain Nord, Tunis, Tunisia**
Final-Year Project (PFE) Intern — Customer Churn Prediction *Feb. 2026 – Jun. 2026*

- Designed a complete decision-support system following the CRISP-DM methodology to identify customers at risk of churn.
- Addressed data quality issues (missing values, duplicates, class imbalance); feature engineering and data visualization.
- Trained and evaluated several machine learning models; selected XGBoost as the final model based on its performance, reaching 96% accuracy, 83% precision, 93% recall and 88% F1-score on the churn class.
- Validated the final model on real customer data, confirming solid and stable performance: 96% accuracy, 82% precision, 98% recall and 89% F1-score.
- Developed a Flask web application with an interactive dashboard and dynamic KPIs to visualize predictions.

Asteelflash Tunisia **Sourkra, Ariana, Tunisia**
Internship — End-of-Year Project (PFA) *Jun. 2025 – Jul. 2025*

- Developed a role-based ASP.NET MVC web application (Administrator, User, Operator) for managing industrial quality tests, implementing a validation workflow (Initial Test → Quality Control → Customer Test) with strict business rules.
- Designed the system architecture with Entity Framework and SQL Server, secure BCrypt authentication, and automatic test-type suggestions based on product history.
- Developed advanced search features, Chart.js analytics, and Excel export (EPPlus) for quality reporting.

PERSONAL PROJECTS

Magasin+ — Store Management System

- Complete point-of-sale web application: fast checkout, stock management with alerts, product categories and subcategories, cashier management with roles (cashier / supervisor).
- Sales reports (revenue, best-selling products, stock value) with CSV export, printable receipts, and an activity log for full action traceability.
- Built with FastAPI, SQLModel, and PostgreSQL; secure authentication with JWT and bcrypt hashing.

CERTIFICATIONS

- Data Science Essentials with Python — Cisco Networking Academy (Sep. 2026)
- Presenting Data — HP LIFE (Apr. 2026)
- SQL — 365 Data Science (Nov. 2024)
- Mathematics — 365 Data Science (Nov. 2024)

LANGUAGES

- Arabic: Native language
- French: Intermediate level
- English: Good level

SOFT SKILLS

- Teamwork and collaboration
- Adaptability and time management
- Problem solving and critical thinking
- Stress management and ability to work under pressure
